Resus360: Masterclass in Advanced Resuscitation

10 December 2025 | 8:00 AM – 5:00 PM (UAE Time GMT +4)

Conrad Hotel, Dubai

Learning Objectives:

By the end of this workshop, participants will be able to:

- Apply advanced resuscitation techniques and integrate point-of-care ultrasound (PoCUS) into the management of critically ill patients.
- Demonstrate effective leadership and teamwork during high-stakes resuscitation scenarios.
- Utilize evidence-based guidelines to support clinical decision-making and improve patient outcomes.
- Recognize, interpret, and respond rapidly to key clinical signs and symptoms in unstable patients by applying structured assessment frameworks (e.g., ABCDE, shock protocols) for timely and accurate diagnosis.
- Interpret essential diagnostic findings from ECGs, imaging, and laboratory investigations relevant to emergency resuscitation.
- Manage complex resuscitation cases with a systematic, evidence-based approach.
- Develop crisis resource management (CRM) skills to optimize communication, task delegation, and situational awareness under pressure.

Workshop Director

Khalifa AlQaydi, UAE

Target Audience:

- Emergency Physicians
- General Practitioners
- Residents

What To Expect?

- Immersive scenarios: High-stakes resuscitation cases that mirror real clinical pressures
- Expert guidance: Facilitators provide real-time cues and lead structured debriefs that turn experience into learning.
- Hands-on, small groups: Intensive practice with a low facilitator-to-participant ratio.
- Teamwork under pressure: Focus on role clarity, closed-loop communication, and rapid escalation.
- Psychological safety: A safe space to learn, make mistakes, iterate — then apply insights on your next shift.
